The Recycled Great British bucket

The Great British Bucket is now made from 70% recycled plastic.

Continuing our drive to supply sustainable products, we're pleased to announce that from July the UK manufactured 14L Great British bucket will be made from 70% recycled plastic.

The bucket body is now black, but still features the colour coded wringer with high neck sieve, mop holder and overspill holes.

This joins our growing range of eco-friendly cleaning products including cloths made from recycled clothing, microfibre from plastic bottles, mops from cotton waste, scourers from nut shells, and wooden brushware from sustainable sources.

Key features & benefits

Recycled

14 litres

Made in UK

Colour coded

- Made from hardwearing and durable 70% recycled plastic.
