

ORIGINS

Peru

SPECIES

100% Arabica

TASTE NOTES

Raisins, Dates,
Dry Fruits

STRENGTH

3 / 5

DECAFFEINATED

PERU SINGLE ORIGIN

A lively and slightly sweet bean with hints of dry fruits such as raisins and dates - without the caffeine. Decaffeinated without the use of chemicals using the supercritical fluid extraction method where the coffee beans are pressurised using CO2 to extract the caffeine - a perfect bedtime drink.

CECOVASA- FT Peruvian Arabica Coffee

Fla Central de Cooperativas Agrarias Cafetaleras de los Valles de Sandi (CECOVASA) was founded in 1970 by five co-operatives with the objective of exporting directly as a group, obtaining better prices and sharing costs. Before this, farmers sold their beans to local traders, who typically paid less than half the market price. Today the organisation exports directly to US and European markets and is one of the largest small producer organisations in the country.

Fairtrade Arabica Coffee Beans

Our beans are amongst the freshest on the market, being roasted to stock in the UK as opposed to importing roasted beans on a much longer timescale. Our Neotech roaster is more environmentally friendly, energy-efficient and better than conventional drum roasters in that it can roast in specific small batches with unique roasting profiles that are able to compensate product variations and unfold the unique flavour of each individual coffee blend whilst reducing wasted heat by recirculating in the fully enclosed system.

All our Fairtrade beans have an independent third-party trail from cherry to cup and our roastery has a direct relationship with the farms alongside our Q graders. These all meet the Fairtrade Standards that ensure that farmers and workers are treated and paid fairly, as well as meeting Fairtrade's environmental standards that ensure production is sustainable, living up to our slogan "Coffee with a Conscience".

What is Fairtrade?

Fairtrade is about better prices, decent working conditions, local sustainability and fair terms of trade for farmers and workers in the developing world. For more information visit info.fairtrade.net/sourcing
