

Our Commitment to Sustainability

Egal Pads is a leader in innovation of pads for public use. Our commitment to continuous improvement ensures that our products not only meet high standards, but also minimize environmental impact, reflecting our dedication to a sustainable future.

Plant-Based Pads

We do not use organic cotton: a low-yield, high energy, water-hungry crop

No superabsorbent polymers: a petroleum product that does not biodegrade

No chlorine bleach
No perfumes
No dyes

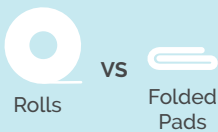

Reducing our Carbon Footprint

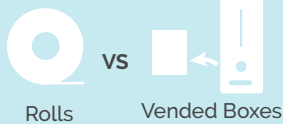

One roll at a time . . .

Our rolls are tightly wound and we don't need an extra box or envelope for each pad. That translates in to savings:

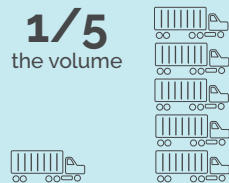

Transport and Storage

1/2
the volume

1/5
the volume

Packaging Materials

For every truckload of rolls, we save:

>16 tons

400 trees!
